

Amendments and Clarifications to Current Documents

The following documents have been published containing minor errors or ambiguities. These are listed below with the amended text.

The changes will be incorporated into the documents during the next revision of the document.

Document number	GK/RT0060	Document issue	4	Document issue date	June 2003
Title:	Interlocking Principles				
Section:	Appendix 2, Table3	Clause number	22		
Amendment text	In line 22 (Junction and route indicators required to be proved alight); under PoSA class, delete 'Yes', insert 'No'.				
	Reason for change is to remove inconsistency with GE/RT8071.
