**Briefing Notes for:** Registration of Rail Vehicles and Mandatory Data Requirements  
**Document No:** GM/RT2453 Issue: One  
**Subject Committee(s)** T&RS  
**Issue date:** October 2000  
**Initial Compliance Date** 2<sup>nd</sup> December 2000

---

## **BACKGROUND**

This document supersedes GM/RT2211. A review of this document was carried out in conjunction with a review of a number of other documents. The changes involve the transfer of controls between a some of these documents and the clarification of the requirements. The purpose of this new document is to deliver the controls in a more robust way. At the same time the opportunity has been taken to bring the requirements up to date.

## **KEY CHANGES INTRODUCED BY THIS RAILWAY GROUP STANDARD**

The changes:

- include the provision of a Certificate of Authority to Operate to be obtained prior to operation on Railtrack controlled infrastructure
- gather all the registration requirements into one document
- clarify the mandatory data requirements
- include special status for heritage vehicles
- bring the requirements in line with GM/RT3270
- clarify the operational and non operational status on Rolling Stock Library.
- clarify the scope of the requirements

These changes do not introduce any new controls over and above the accepted controls already in place.

## **COMPLIANCE REQUIREMENTS**

The provisions of this document are to be complied with from 2<sup>nd</sup> December 2000.

## **NON COMPLIANCES**

The following Non Compliances will no longer apply when this document is introduced:

<b>Number</b>	<b>Subject Matter</b>	<b>Action</b>
99/175/NC	Mandatory Data for Rail Vehicles	Cancelled
